PROFILE

First-year B.Tech Mechanical Engineering student at Galgotias University with an interest in mechanical design, CAD, automation and practical engineering projects. Currently building foundational skills in engineering subjects, CAD/design concepts, Arduino, C programming and Scilab. Interested in developing strong technical and problem-solving skills through hands-on projects.

EDUCATION

B.Tech – Mechanical Engineering
Galgotias University

2026 – Present
India

TECHNICAL SKILLS

Mechanical	Mechanical Engineering Fundamentals, Engineering Drawing, Heat Transfer Basics
Design	CAD Concepts, 2D Drawing, 3D Modelling Concepts
Programming	C Programming Fundamentals, Scilab Basics
Automation	Arduino, Sensors, LEDs, Basic Embedded Projects
Tools	GitHub, GitHub Pages, Microsoft Word, PowerPoint

ACADEMIC / PERSONAL PROJECTS

Cooling System – Mechanical Engineering Project

Exploring heat-transfer and cooling-system principles through a prototype concept involving a radiator/fan, pump, tubing, temperature sensing and control.

Arduino Engineering Project

Beginner automation project using Arduino, sensors, LEDs and other components to learn sensor interfacing, basic programming and control.

3D Mechanical Portfolio

Designed and deployed a GitHub Pages portfolio featuring an interactive Three.js mechanical gear, engineering project showcase and technical profile.

CAREER INTERESTS

Mechanical Design • CAD/3D Modelling • Automation • Engineering Projects • Core Mechanical Engineering
